

Twinning Project TR 04 IB EN 02

Twinning-Project Environmental Noise Management

Component	4: Preparation of noise action plans in pilot regions
Activity No.	Activity 4.2: Preparation of a noise action plan for Adana Metropolitan Municipality
Mission No.	2
Mission date	25. - 29.02.08
Project No.	PN. 04.9215.7-003.00
Objective	Traffic noise action planning: first meeting of a local expert working group, first draft of a list of measures, organization of public participation
MTE/STE	STE: Dr. Raino Winkler
Report on Mission Agenda	WS and meeting with pilot region Adana <ul style="list-style-type: none">- Meeting with professor Ferdi Tanır (noise study on Adana),- first meeting of a local expert group,- draft of traffic planning measures with noise reduction potential,- list of proposals for additional noise reduction measures,- continuation of the preparation of the public event on March 27th.

Date: 29.02.2008, Adana

Results of the mission:

The local working group met Prof. Ferdi Tanır editor of a noise study on Adana. Prof. Tanır presented the main results of the study and proposed several general noise reduction measures as input for the local expert working group. He accepted to present general aspects of impairment of health by noise at the public event that is planned for March, 27th.

On the first meeting of the local experts of the municipal administration of Adana and the district administration of Seyhan the most important city development and traffic plannings were presented by the responsible department and discussed regarding the noise reduction potential. Several participants proposed additional measures with direct or indirect noise reduction effects. A first list of measures was drafted that will be the basis of discussion for the noise action plan. All participants generally agreed to support the public event on March 27th. The discussion took place in an interested and constructive atmosphere.

At a second meeting with the planning department of Adana the open questions regarding the traffic plannings were discussed and concretised. A digital map of the plannings was made available as attachment for the description of the measures. The local working group finalized the minutes of the expert working group in order to achieve an agreement on the list of measures within the municipal administration.

The local working group continued the organization of the public event. The members of the podiums their input (short presentation) and the moderator were appointed. A leaflet was prepared and the list of stakeholders that shall be invited directly was finished. The “rules” for the discussion and the answers of questions by podium members were discussed.

The next mission will take place March 25th – 29th.
